How to Access Your Child’s Class Page and Newsletter

1. Log into your parent account at the appropriate site below. Please make sure to use your Family Code/Username (e.g. ABD1102) and NOT your child’s student (typically has a “-1”, “-2”, suffix e.g. ABD1102-1):

2. On the School Home page, click the “My Students” tab.

3. Click your child’s student icon. The classes that he/she is assigned to will display at the bottom.

4. Click the class you want to view and a new page will open up for that particular class. If a new page does not open, you may need to disable pop-up blocker for the Sycamore site on your browser by following instructions here.
   - PK-3rd grade: the special subjects and academics newsletter is combined and will appear in the News section of the “Homeroom” class page.
   - Grades 4th–5th: the academics newsletter will be in the “Homeroom” class page and the special subjects will be separate under their own respective class pages (E.g. Arabic, Quranic Studies, etc.).
   - Grades 6th and above: teachers for different subject areas will post on their individual class pages (e.g. Math, Language Arts, Arabic etc.)
5. Once you’re in your Class page, the newsletter and other pertinent information will be under the **News** tab.
